

# Build It

**Supplies:** The resource monitor should pick up a set of envelopes and cubes for the group. The resource monitor should open the envelope labeled Build It #1 and distribute all of the cards. It is okay if one or more group members end up with more than one card. Make sure that there are two red, two blue, two yellow, two orange, two green, and two purple blocks in the center of the group area.

**Objective:** The object of this exercise is to work together to build the structure described on the clue cards.

## Rules:

1. Each person may only look at their own clue(s).
2. You may tell your group what your clue says, but you may not show anyone your card.
3. Build the structure described by the clues.
4. When your group thinks you are done, review each clue card to make sure the structure matches every clue.
5. Return the clue cards to the envelope and try another envelope for an additional challenge.

## Norm:

- Everyone gives information.
