

# BUTTERFLY SUDOKU

Complete each of the four overlapping grids. For each of the individual 9x9 sudoku grids, each row, each column, and each outlined 3x3 square must contain the numbers 1 - 9 exactly one time each.

A blank 12x12 grid. The grid is composed of 12 columns and 12 rows. Thick black lines divide the grid into a 3x3 pattern of larger squares, each of which is a 4x4 sub-grid. The lines are black and have a thickness of approximately 2 pixels. The background is white.
