

Conic Section: Ellipse

$$\frac{(x-h)^2}{a^2} + \frac{(y-k)^2}{b^2} = 1$$

Center is (,).

If _____, the major axis is parallel to the x-axis, the length of the major axis is $2a$, and the length of the minor axis is $2b$.

If _____, the major axis is parallel to the y-axis, the length of the major axis is $2b$, and the length of the minor axis is $2a$.
