

the length of time you will need to wait	the number of meals you prepare
the amount of strawberries you pick	the total amount of candy you will hand out
the number of pictures the photographer will take	the number of jars you will be able to fill with jam
the number of orchestra members who go on tour	the number of songs performed
the number of people you will be able to serve	the number of hotel rooms they will need to reserve
the number of people in line ahead of you	the number of cucumbers you have
the number of students attending the dance	the number of people attending the potluck
the number of squares Marshall cuts the pizza into	the amount of money they will be able to raise
the number of pickles you can make	the duration of the concert
the number of cookies they bake	the number of visitors to your booth
