INSTRUCTIONS

- Place one matching items sheet on each table.
- As students enter the classroom, pass out a hand card to each student.
- Students must group together with the other students who have a matching hand card. You may let them choose a table to set at, or you can tape a separate hand card to each table to show them where they are to sit.
- Tell students that each of the items on the sheet of paper have been completely covered in ink. It is their job to determine which object was picked up by each of the hands on their card.
- Host a class discussion in which each group tries to convince the rest of the class regarding the validity of their choice.
