PENTOMINOES PUZZLE PRINTING INSTRUCTIONS

This file is specifically designed to be used with pentominoes composed of one -inch squares. For the pentominoes to fit perfectly on the grid, this file must be printed at 100% Scale or "Actual Size." If your printer defaults to "Fit" or "Shrink oversized pages," the pentominoes will not fit properly on the grid which can cause great frustration when trying to solve the puzzle.

If you don't have access to a set of plastic pentomino pieces, you can download a <u>set of free printable one-inch pentominoes</u>.
