

# Periodic Table License Plate Project

- You may only use letters which appear in the chemical symbols on the periodic table.
- The letters you use must follow the rules of the periodic table. Capitalized letters must remain capitalized. Lower case letters must remain lower case.
- Include the following information for each element:
  - Chemical Symbol
  - Chemical Name
  - Atomic Number
  - Atomic Mass
- The symbols you choose should spell a recognizable word or message.
- Use the paper provided by your teacher to complete this project.
- Your completed project should be colorful and creative.
- Write your name on the back of your completed project.
- Project Due: \_\_\_\_\_

Example:

90	53	7	19
<b>Th</b>	<b>I</b>	<b>N</b>	<b>K</b>
Thorium	Iodine	Nitrogen	Potassium
232.04	126.90	14.01	39.10
