## X-Intercept

The point where a graph crosses the $\qquad$ -

X-Intercepts happen when the $\qquad$ is $\qquad$ .

To find the x -intercept from an $\qquad$ replace $\qquad$ .
(or ___) with $\qquad$ and solve for $\qquad$
(or $\qquad$ ) with $\qquad$ and solve for

$$
=
$$ _, re $\qquad$ .

The point where a graph crosses the $\qquad$ .

X-Intercepts happen when the $\qquad$ is $\qquad$

The point where a graph crosses the $\qquad$ .

X-Intercepts happen when the $\qquad$ is $\qquad$ .

To find the $x$-intercept from an $\qquad$ replace $\qquad$ (or ___ ) with and solve for $\qquad$ $-$

## x-ntercept

The point where a graph crosses the $\qquad$ -.

X-Intercepts happen when the $\qquad$ is $\qquad$ _.

To find the $x$-intercept from an $\qquad$ replace $\qquad$ replace $-10$ $\qquad$ ) with $\qquad$ and solve for $\qquad$ $\cdot$
x-ntercept

The point where a graph crosses the $\qquad$ -.

X-Intercepts happen when the $\qquad$ is $\qquad$ .

To find the x-intercept from an $\qquad$ replace $\qquad$ (or ___ ) with ___ and solve for replace
